Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

I very much support this Bill. DSP's DO NOT get paid enough for all they do, while supporting clients. We endure both physical and verbal abuse, if not mental, and spend as much time, if not not more, with clients as we do our own families. Yet, there is nothing we can change if we value and love the work we do and want to keep out job. SO, In my opinion, DSP's deserve at least \$25 (+) hourly.
