

Submitter: Molly Albright
On Behalf Of: Kym McCornack
Committee: Senate Committee On Health Care
Measure: SB628

I am in support of SB 628 because it directly affects a dear friend of mine's daughter and so many other children and adults struggling with PANS/PANDAS. The IVIG treatment is ridiculously expensive but crucial for remission to be achieved in so many cases. Please pass this legislation so that commercial insurances cover this treatment. Thank you.
