

Chair Nosse, Vice-Chair Goodwin, Vice-Chair Nelson,
and Members of the Committee:

I am writing in strong support of House Bill 2048. This bill is essential for improving access to behavior analysis intervention services for the people of Oregon. By establishing criteria for the registration of behavior analysis interventionists and creating a process for provisional registration, this bill will help ensure that individuals seeking these services have access to qualified professionals who have received proper training and meet the necessary requirements. The fingerprinting and criminal records check provisions also provide an added layer of safety for those receiving behavior analysis services. This bill is a positive step forward in improving health care in Oregon and I urge the Committee to move it forward.

Thank you for your time and consideration.

Sincerely,

Devon Lawson-McCourt
