

Submitter: Ryan McFallo

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

The work that is provided by Direct Support Professionals across the State of Oregon will be in high need with the aging population and if you would like to retain a workforce than it is beneficial to pay them what they are worth. The job is not for unskilled labor workers, it is provided by compassionate and empathetic individuals who tirelessly give up their time to help others. They deserve a liveable wage!
