

Submitter: Tanya Savko

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

They do the work most people don't want to do! DSPs (Direct Support Professionals) deserve a living wage, and Individuals with Intellectual and Developmental Disabilities who receive services deserve staff who are fairly compensated for the care they provide many of Oregon's most vulnerable citizens, one of whom is my adult son, who is able to live semi-independently and enjoys a higher quality of life because of the supports he receives from his staff.

Please create a sustainable workforce by supporting HB 2457! Thank you.
