

Submitter: James Cottom

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

Access to the support provided by quality Direct Support Professionals is essential for Oregonians who have Intellectual and Developmental Disabilities to remain healthy, safe, and live meaningful lives. Access to these supports is only possible if DSPs are paid a true living wage. Please support HB 2457 and ensure DSPs are paid a living wage and people who have Intellectual and Developmental Disabilities have access to the support they need.

Thank you,

James Cottom
