

Submitter: Mayra Uribe Zarate

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2979

Colleges is the best way to learn about the dental field. Getting train on job setting only teach you the basics and how the office work, which didn't provide all the information you need to fully be prepare as a dental assistant. In other hand, going to college to be a dental assistant you get exposed to all the material and properly demonstrate what are you learning.
