

Submitter: Christal Hill
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2772

This bill is written in a manner that will deny citizens their right to assemble and peacefully protest at the Capital. We citizens have a right to be heard even if truck horns interrupt your day. Do not allow this to go through, we are not in a communist state so please stop trying to make it as such. I am an American Citizen protected by the Constitution and you will NOT violate my rights to protest peacefully, whether its holding a flag, or blowing a horn. If your bills cause harm to my community and state and disrupt our financial ways of life, or our freedom I have the right to circle the Capital and be heard.
