

Submitter: Chad Kernutt
On Behalf Of: Concerned Oregonians
Committee: House Committee On Revenue
Measure: HB2142

Dear Lawmakers,

Please pass HB-2142. We need more relief from what the CAT tax is already hammering on businesses which is driving up costs on all of us Oregonians across the board on everyday goods and necessities. We need relief and more money in our wallets and not more taxes for an already bloated Oregon government. Leave Oregon businesses alone and leave us consumers alone and give us the relief we're seeking!! Please pass HB-2142 which is common sense legislation. Thank you.
