

Submitter: Steve Cheseborough

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

Let's make it as easy as possible for people to choose bikes and leave their cars at home. We have to make the streets and roads safer. We also should make it less convenient to operate and park a car. And we should make it easier and cheaper to operate and purchase a bike!

E-bikes are almost magical. You pedal them like regular bikes but you go faster and farther. They put smiles on people's faces. And they save lives in many ways. Let's pass this bill and then go on to other ways to encourage biking and discourage driving. Thank you.
