

Submitter: Stan Vizina
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2572

I don't believe there is any real need for this bill. Does anybody have any real data that shows there is a problem so this is needed? No, they don't.

What is the point then? They'll be news reports "Oregon passes law protecting against paramilitary groups". Then gullible people will think "oh that must be a problem in Oregon. We better support stuff like this or the extremists boogie men will get us."

If this bill is needed, provide any credible data for Oregon that what I am saying is untrue. You won't, you can't, it doesn't exist.

Quit playing political games with our legislation. Start doing your jobs, providing legislation that improves the lives of the citizens of the state. This isn't that.
