

Submitter: David Wall
On Behalf Of: Mr Oregon Supports SB 145
Committee: Senate Committee On Energy and Environment
Measure: SB145

Wednesday [02.08.23]

I SUPPORT [SB 145].

Oregon needs all the energy we can get and burning biomass keeps that material from landfills.

Screw the climate clowns, fire up the boilers.

David S. Wall

Mr. Oregon Concur....Hydrogen power will happen some day.
