Measure: HB2457

Hi sir/madam Legislator,

I'm writing my testimony in an effort to obtain your support for the unseen heroes that have no time for themselves but to care and give their best every day to the less fortunate in our society, we are many mothers sacrificing our own to give care and love to those who families and society have rejected. We Direct Support Professionals are Living in low income when cost of living is skyrocketing. I'm begging you to support bill HB2457 to improve our wages!

Thank you, sincerely

Rebeca
