

Submitter: Dawn Christensen

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

I have a severely disabled daughter who requires 24 hour care. I do not want her in a care facility. To be able to hire quality people who will be dedicated to helping me take care of her and have them stay working is important to her mental health and mine as well. This bill would minimize staff turnover and allow our disabled kiddos with enough challenges already to thrive.

I am a mother of a disabled daughter and work as a support professional with disabled adults.
