Measure: HB3022

Chair Marsh and Committee Members,

I am Janice Flegel. I farm in Central Oregon with my family. We live in rural Oregon and have to transport commodities to get them to market.

I urge you to support HB 3022. This is a welcome bill as the effects of rules adopted by the EQC and DEQ are burdensome. Elected officials should be the ones to adopt rules and regulations. I believe the Oregon Legislative process would be a good check and balance to this process.

EQC adopted rules that align Oregon with California's vehicle emission standards. This will be extremely onerous on rural Oregonians. The citizens that this affects should have an opportunity to have their voices heard. Our business cannot afford the many rules that DEQ and EQC keep adding to our already full plate.

Please Support HB 3022
