Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2999

HeyGo to Norway, Sweden and Canada...you will see OVERPASS game bridges not underpasses...Montana, Wyoming, Idaho with overpasses for migrating herds. Don't let the road Department convince you to build structure's requiring 250K compression by 105K 18 wheeler trucks....you don't need to go under the road, go up the side and over it with the total load of 35 by cyclist weight....you can easily calculate the weight of 10-20 deer, elk....they can be pre- fabed, delivered to the site bolted to gathered and operational in days...get the union out of digging, framing, installing iron rods, pouring concrete, tearing it down foe each overpass. Don't build overpasses for animals....you'll be able to build 10 for the cost of one OVERPASS.
HOWARD.
