

Submitter: Rose Bernal

On Behalf Of: Albertina Kerr

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

Help support our DSP, APM, PM's, by raising wages for them. We all work so hard and these 3 job titles might sound like they are a big difference in pay and performance but they all 3 have the same thing in common except each one hold even more responsibility. Please help us pay for out day to day needs like rent, utilities, gas, food, so we can take our minds or the stress of paying these things and having to work double shifts sometimes triple shifts because of the high turn over rate, to make our bills.

We need to feel secure and cared for by our job in order to keep our staff members around.

I have never worked a work week that was under 55 hours.

Thank you,

-Rose Bernal
