

Submitter: John K Miller
On Behalf Of: Courthouse Club Fitness
Committee: Senate Committee On Judiciary
Measure: SB754

I wish to state my support for this common sense piece of legislation. The vast majority of Oregonians are fair minded and understand the small, but real risk that comes with engaging in sports and fitness activities. Knowing the risk, these Oregonians engage in an active lifestyle for the joy it brings, and the vitality it adds to their lives.

This bill protects the businesses that fair minded Oregonians depend on to provide facilities and programs to pursue their active lifestyle. It protects them from a small minority of Oregonians who would bring unfair and unfounded law suits. Such lawsuits, or just the threat of them, harm the recreation and fitness industries and the vast majority of Oregonians who want these industries to thrive in our state.

Oregon is known as a healthy place to live. Help keep it that way.
