

Submitter: Jamie MCNEILL

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB2510

The county fairground is a wonderful community resource, but it needs more funding. The Clackamas County fairgrounds has degraded significantly over the past few years, such as through loss of the main livestock barn and the large tent that temporarily replaced it. In addition to supporting the activities that have historically occurred at the fairground, this funding will become more critical as climate change progresses, such as when our local farms are forced to evacuate their livestock from wildfire and need somewhere to go.
