

HB-2585

Motor Voter is foolish. If people wish to vote and believed that it's of value then let them make the effort that shows that. Motor Voter has only grown our "voter rolls" sorry muddied the waters. Where are the one million missing voters? See inset below from The Secretary of State. Where have the one million mailed out ballots gone? Do you think every one of the missing million when into the garbage? Also ballots are not free to print or mail, save a buck or two physical responsibility is another good reason to stop this. And heaven know we can use that money elsewhere. It's time to be responsible in Salem. Vote yes and stop this madness.
