Committee: Senate Committee On Human Services
Measure: SB576

SB576 2023
February 9, 2023

To whom it may concern,

I am in support of the bill SB 576. As my understanding the way it currently is as a disabled person to qualify for Medicaid there is a cap on income of \$2,000. This cap currently affects individual obtaining extra when they are pursuing a meaningful career helping so many others in the community. The resources they obtain should not be a hindrance or make that person feel jeopardized in obtaining and maintaining Medicaid. With this bill it would help the individual to be able to work and contribute to their family financial needs.

With current economy it just makes sense that one could be able to potentially save financially if able to work and not jeopardize their medical and personal care needs specially that of a spinal cord injury.
