

Submitter: Marti Franc

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

SB 704 provides the next step toward implementing health care as a right for Oregonians. With this bill, we assure that a comprehensive plan can be developed and put in place to continue Oregon's place as a leader in addressing the health needs of low income and disenfranchised residents. As a retired public health professional, I've seen too many instances of people falling through cracks in convoluted health care systems that don't coordinate or even communicate with each other. This plan will create an integrated system to address the health needs of all our people. I support SB 704.
