

Submitter: Robert Main
On Behalf Of: Coos County Commissioner
Committee: Senate Committee On Natural Resources
Measure: SB199

I and many others that i have talked to are in opposition to SB199. The bill appears to be purely political and not based in scientific fact. Rodents and predators already do millions of dollars of damage to crops and livestock. This bill would add more damage and cost to our food supply.

Sincerely,

Bob Main
Chair, Coos County Commissioner
