

Submitter: Andrew Glemser

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2457

I fully support this bill. As a Healthcare provider, more needs to be done to help the actual attendees to patient and not Healthcare administrators. If we keep lowering our support to those who provide medical care, then we will soon find ourselves in a very difficult position of understaffed, which will result in substandard of care.
