

I am NEUTRAL concerning [SB 853].

On the face of [SB 853] it is reasonable, "Not" to pay for travel compensation to employee(s) who chose to live in other states.

**[SB 853] has too little information as to the "employee(s)" at issue.

Are there employee(s) whose service (s) require unique and specialized skills not readily replaceable yet, are critical for Oregon?

I am not being mean and or disrespectful but, I don't classify any Senator and or Representative of the Oregon State Legislature having any "unique and specialized skills" justifying travel compensation to from anywhere on the planet.

[SB 853] is too vague and ambiguous.

David S. Wall
Mr. Oregon Concur.
