Measure: HB2585

I enthusiastically support HB2585! End automatic voter registration through Oregon Motor Voter. It is rife with opportunities for confusion and mistakes. We've seen antiquated software in multiple state departments, including the employment department and the elections division.

Additionally, people who want to vote should seek out and purposefully register themselves, including their party choice. Voting is a right and a duty, and should not be taken lightly. Automatically registering someone for something as important as voting makes no sense when people are doing their vehicle business--these are totally unrelated tasks.

Thank you. Please vote yes for this critical legislation.

Sincerely,

Jane Herb, Keizer, OR
