

Submitter: John Sayles  
On Behalf Of: self  
Committee: Senate Committee On Human Services  
Measure: SB576

As someone with a disability, I've always felt trapped by my medical benefits because without them I will not be able to live sustainable life even if I was to get a job because all my wages would go to medical needs. I've always thought the state would be better off if they allowed us to work while maintaining our insurance as it would generate more taxes and help increase the mental health of those of us on disability allowing us to become more active members of society
