

Submitter: Victoria Sit

On Behalf Of: Shelby Atwill

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2994

I believe that this bill is needed as I go into the field of pediatric audiology. Medical benefits should be able to help anyone and everyone no matter their status. As the young people march towards a brighter future our future generations need our support now. When we can support our future generations it gives us a better outlook on the future. Medical coverage should be widely available and open to those in need.
