Measure: HB2585

I Support HB2585! End automatic voter registration through Oregon Motor Voter. Automatically registering 16 year olds who are not eligible to vote only artificially increases our voter rolls. It also allows for illegal immigrants and others who should not or would not register to further inflate the rolls. This does not give a realistic count of legal voting population in the state. By the time many of these teens are eligible to vote they are living out of state and increases the possibility of somebody voting fraudulently in their place.
