

Submitter: David Darnell
On Behalf Of: Restore Oregon Now
Committee: House Committee On Rules
Measure: HB2585

The automatic registration of those Oregonians who may otherwise not register to vote is an unnecessary expense for taxpayers to bear. As the non-affiliated voter roles are diluted with more people who have no interest in voting, the turnout numbers for that registration classification continue to decrease with each election cycle.

Please vote to end the automatic voter registration.

Thank you.
