

Submitter: Rodney Tombleson
On Behalf Of: Self
Committee: House Committee On Rules
Measure: HB2585

The DMV should not have ANY part in voter registration. It is the responsibility of each voter to go to the County Clerk's office and register there. But this measure is a step in the right direction. So I support ending the automatic registration of a person just because they secure a driver's license in our state. There is no real hope that the person even is a citizen, or of responsible behaviors to be allowed to vote. Voting persons must be citizens first, and uphold the constitution of the USA and the state of Oregon. We don't know this just from them acquiring a driver's license. I support this measure, HB2585
