On Behalf Of: personal viewpoint  
Committee: House Committee On Rules  
Measure: HB2585

I'm all for this bill. Voting is the right of every citizen. Registration to vote should be a willful, thoughtfully considered action of each citizen entitled to vote. A very thoughtfully considered action. It should not be automatic. It should not be initiated by anyone but the individual citizen. Please pass HN 2585 and make it effective ASAP. Follow up with checking all automatically generated registrations. Notify anyone who may appear to not have made the conscious choice by mail that the record will be purged if not personally updated. That way those persons will know they must show up and register themselves personally. Thank you.
