Measure: HB2107

When I turned 18 in February of 1969, the State of Oregon's Draft Board sent me my draft notice I was A1 in March of 1969, it was because I had a permit to drive in 1966 and was required to register for the draft. When I first registered to vote, it was not until 1975. They would not register me to vote when I was 18 because I had to be 21. When I turned 21, I was in the Gulf of Tonkin. There was no Umatilla County Clerk to register me on the USS Constellation. Officially, I have been a lifelong resident of Oregon, even though I served from 1969 to 1975. It is absurd anyone can register without showing current residency in Oregon and a Birth Certificate. Just to get an 8th Grade Graduation Certificate I had to have Oregon Geography including our Constitution. As it now stands, I could register a district full of voters at my address without much difficulty. No one is checking if there are two, three, or 33 registered. When register/vote by mail started we went from a "Red State" to a "Blue State" just by the change in voting on one district in Portland. If you think there is no voter fraud, then you come up with how many votes I got in the last four elections. Name the offices where I got votes. I know for certain about some. END voter fraud.
