

Submitter: Rachelle Timm
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2585

There are a large number of issues connected to motor voter that are causing our elections to be fraudulent. First, there is no requirement anymore to actually provide proof of US citizenship to register to vote, OR validation of any address at which that person is registered. Also, ballot harvesting is legal in Oregon, which makes it even easier for nefarious activity to take place by the potentiality of stuffing ballot boxes with ballots that can't be tracked to voting citizens, or registration at a correct residence.

Because of the automatic registration and because we no longer are forced to clean the voter rolls, there are countless ballots mailed without any current verification or proof that: 1) the voter lives at the residence to which the ballot is being mailed, 2) the voter is a US citizen, or 3) the voter is STILL ALIVE.

I have personally witnessed through MANY multiple citizens communicating to me, INVOLUTARY political party changes, changing voters to "inactive" status, directly or indirectly due to DMV automatic voter registration and also changes of address via USPS. These are serious issues in keeping our elections "free and fair".

I am VERY STRONGLY IN FAVOR of passing this measure, to GET RID of automatic voter registration through Oregon Motor Voter.
