

Submitter: Charles Ruddell

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB199

Our farm is next to the Bandon Marsh/Swamp & we are over run with mosquitos & beavers. I have tried to coexist with both & it is impossible. Mosquitos pursue you until you flee. Beaver undermine & collapse water ways & ponds. They needlessly fall trees & plug ditches flooding roads & surrounding lands causing erosion.

In this case animal management needs to be local not state managed.
