Measure: HB2585

The ONLY thing likable is the convenience of the proposed voter registration. The remaining portions of this bill is so full of holes that it easily allows illegal aliens to vote (which they do not have the right under U.S. Constitution). Also this bill has such a large loop hole that the voter rosters would NOT be updated, cleaned up of non-residents & former residents. I oppose this badly written bill and INSIST you NOT vote for it.
