

Submitter: k davis

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I stand in support of this bill. Conversion 'therapy' is a barbaric practice that results in harm to those it is imposed upon. For professional counselors of any licensure to implement these strategies would violate licensure requirements and ethical standards to do no harm. This is a practice based on prejudices and dogma and has no place in any ethical mental health or counseling practice.
