

Submitter: Katie Davison

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

A friend of mine in high school came out as a lesbian, her parents forced her to go to conversion therapy and she almost killed herself afterwards. Thankfully, she is still here because of therapy to treat the psychological trauma she endured. PLEASE prohibit conversion therapy, it is extremely harmful and damaging to the people who go through it. I am bisexual myself and in no way support the use of this outdated and dangerous form of "therapy".
