

Submitter: Jim Schepcke

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB530

Dear Chair Golden and members of the Committee:

I want to thank the sponsors of this bill for bringing this forward. Natural climate solutions are long overdue and will be a much needed response to the Climate Emergency that is already upon us. I want to agree with the testimony of my friend Sarah Deumling about the need for this legislation not just to benefit landowners who have not been implementing natural climate solutions but to those who have and will continue to do so.

Thank you for your service to our state!
