

Submitter: Ebba Haines

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

As a medical student, mother, and common-sense citizen, it is clear to me that universal health care is the way forward. Americans pay far too much money to insurance companies who are not holding up their end of the deal. And health care providers spend far too much time trying to figure out different insurance plans. We are often forced to make decisions based on insurance rather than what is the best option for the patient. Oregon has the opportunity to lead the United States in this effort, and it is a chance we should take.
