

Submitter: TIFFANY RITTER

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2994

As a hearing-impaired individual, I would like to offer my support on House Bill #2994 to expand health benefit plans to reimburse costs for medically-appropriate bilateral cochlear implants for the treatment of hearing loss, and its programming and reprogramming needs. Had this amendment been in place when I was younger, it would have been likely that I would have received necessary treatment at a necessary time, instead of having to delay due to financial hardships. I urge you to put this bill in force, for the sake of our children and our children's children.
