

Submitter: lynn bousquet

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

I believe a universal health plan will allow all people have access to the full range of quality health services they need without financial burden. It's an investment in people and communities and allows everyone to be on an equal playing field when it comes to their health care. It will give people, who might otherwise not have access to healthcare, the ability to thrive and have better opportunities without the worry of this unnecessary hardship.
