

Submitter: Ava Tischer

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I support the passing of HB 2458 because it keeps both gay/lesbian kids and trans kids safe from conversion therapy. I think it's absolutely vile that anyone would oppose banning conversion therapy for anyone! Just because you don't like trans people or queer people, that doesn't mean that you get to perform reparative therapy on them! I urge you to pass HB 2458 on the behalf of all queer people, both children and adults.
