

Submitter: Janet Wallinder
On Behalf Of:
Committee: Senate Committee On Health Care
Measure: SB704

I am writing to encourage your support of SB 704. I am a retired public health nurse, having worked 32 years in Oregon local county health departments. Throughout my career I repeatedly saw the negative impacts on people who did not have available or adequate health care in our fragmented system. The passage of the health care for all initiative and the current Task Force on Universal Health Care have given us hope that we can create an affordable and equitable health care system for Oregon. Passage of SB 704 is the critical next step to create an implementation plan for universal health care system. Oregon can again lead the way in innovative solutions to achieve health care for all.
Thank you for support.
