

Submitter: Winter Barr

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

My name is Winter,

I am here to speak for all Oregonians who currently are working, without any healthcare coverage, or even if you do have coverage. The type of care you receive depend's on your employer and how much they will cover.

We already pay for Medicare, with out taxes and it is beyond time that we see Healthcare as it is, a fundamental human right. I also highly suggest we keep private healthcare for those who want that option, and a public funded healthcare system for all.

Government officials who are paid via tax payer money have healthcare, but a lot of the working class does not. Retail, food, service industries are amongst the groups that don't have Healthcare.

Universal healthcare would send the message to the American people that it's Government cares about the people.
