

Submitter: Michael Brainard

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3073

Chair Fahey, Vice-Chair Breese-Iverson and Vice-Chair Kropf

There once was a time when people respected each others privacy, unfortunately that is no longer the case.

There are multiple documented cases of people who have seeked out government officials addresses with the intention of being obnoxious or putting the elected officials family in danger. House Bill 3073 would make it harder to find a candidate or elected officials address.

I support HB 3073
