

Submitter: Tamara Peyton

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2585

There has been so many issues with automatic registration. People should take the initiative themselves to register. My own neighbor bought a car with her boyfriend who lives in Redmond , she lives in Clackamas County. DMV registered her boyfriend to vote at her address, he received a ballot at her house and one at his own address.

Dmv needs to stay separate from voter roles. They're a mess. Plus who all is being registered? And why did another friend of mines party affiliation change without her knowledge. DMV needs to stay with motor vehicles and out of voting
