

Submitter: Chrissie Ott MD
On Behalf Of:
Committee: Senate Committee On Health Care
Measure: SB704

As a physician, working in Oregon previously in primary care now in specialized pediatric complex, care and hospital medicine we providers are chronically traumatized by the inability of many patients to access healthcare. The complexity of acquiring and paying for insurance for families is a great burden and impediment to this basic human right. I am thrilled to hear this as being considered and fully support next steps of exploration for universal healthcare coverage system in Oregon.
