

Submitter: Judah McAuley

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

Healthcare is not only critical to a functioning citizenry, it is a human right. The healthcare system in the United States is broken in a large number of ways. This bill represents an opportunity to reduce unnecessary complexity and cost in the healthcare system that only serves as a barrier to care, never to make people healthier. It is my hope that with the passage of this act, Oregon will not only serve our own people better, we will also serve as a model for the rest of the country and show that government can be a force for good and help deliver critical services to each and every one of us.
