

Submitter: Josie Alexander

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2458

I oppose HB 2458. What is being deemed “conversion therapy” is just talk therapy. This type of therapy is neutral & allows for open dialog between a client & psychologist. It is obvious gender identity has increased & it’s increased with in a population that have underlining issues that need to be worked through NOT pushed through via surgery & drugs .

Thanks

Josie Alexander
